

Summary

Motivated BCA student with a basic understanding of programming and computer applications. Familiar with languages like Python, Java, and SQL, and eager to learn more about software development and real-world problem solving. Looking for an internship opportunity to gain practical experience, improve technical skills, and build a strong foundation for a future career in IT.

Education

Bachelors of Computer Application-Techno Main,Saltlake	Sept 2023-Jun 2027(expected)
Higher Secondary-Aditya Academy Senior Secondary (Class XII,CBSE- Pure Science)	May 2021-May 2023

Courses & Certifications

- AWS Academy Graduate-Cloud Foundations
- Python Fundamentals For Beginners(Great Learning)
- SIH Internal Hackathon Participation 2024
- SIH Internal Hackathon Participation 2025

Experience

Private Tutor(Part time)	2023-Present
<ul style="list-style-type: none">Taught Computer Studies, Arts, and general subjects to three students, improving their academic performance.	
Technical head(College club)	2025-Present
<ul style="list-style-type: none">Leading and managing all technical projects and events of the club.	

Project Highlights

Voice Asssistant(Jarvis)	Developed a Python-based voice assistant inspired by CodeWithHarry’s Jarvis project. The assistant can perform basic tasks such as opening applications, searching the web, playing music, telling the time, and responding to user commands using speech recognition and text-to-speech libraries. Technologies Used: Python, SpeechRecognition, pyttsx3, datetime, webbrowser, os
